Overview of the Series

The **Magic Tree House** series debuted in 1993 with the first book, *Dinosaurs Before Dark*. The premise is simple yet captivating: a young brother and sister discover a tree house that, when they close their eyes and say the words "magic tree house," transports them to different times and places around the world. Each book is a self contained adventure, yet the overarching narrative follows Jack and Annie's growth and the development of their friendship.

With over 70 titles released to date, the series covers a wide range of historical periods, cultures, and mythical settings. From the age of the dinosaurs to the future, from the bustling streets of London to the remote jungles of South America, readers experience the thrill of discovery alongside Jack and Annie.

Main Characters

Jack

Jack is a curious, resourceful, and slightly mischievous 8 year old who loves science, inventions, and problem solving. His quick wit often helps the duo navigate tricky situations, but he also learns valuable lessons about responsibility and empathy throughout the series.
